

Colsen nominated
for the Emergo 2013
Innovation Award
with BIDOX® system

Newsletter 2013 - #3

Emergo 2013 Innovation Award nomination

Colsen has been nominated for the prestigious **Emergo 2013 Innovation award** in recognition for the successfully marketing as an SME from Zeeland of an innovative product like **BIDOX®**. This is a technological concept for biological removal of sulphur compounds from natural gas, biogas, emission gas from municipal waste or flue-gas. **BIDOX®** systems have been installed in an international setting and are applied in numerous communal and industrial applications, like in the food industry, pulp & paper sector, at wastewater treatment plants, etc.

From December 2nd to 6th, 2013 **Omroep Zeeland** will use her daily TV news broadcast **Zeeland Nu** to highlight the individual nominations in more detail. The related news flashes will be available for future viewing via www.omroepzeeland.nl/emergo.

Please use your personal vote to support the Colsen nomination between December 2nd and 11th, 2013 via www.omroepzeeland.nl/emergo
